

In this day and age, it is difficult to find a positive radio station to listen. Airl provides a much needed alternative to the aggressive, negative, hateful music and talk shows that seem to fill all of the commercial genres. If the FCC were to take away Airl's ability to broadcast in wide ranging markets, our city would lose a valuable tool in mentoring to our youth. Without the positive and encouraging music and discussions that Airl provides many would be forced to listen to music and talk that would encourage aggressive and hateful behavior. As a monthly sponsor of Airl I encourage the FCC to rethink LPFM proposal. There are more than enough channels out there, let's control the conglomerate grip on radio.

Peace & God's Blessings,
Chris LaPlante
A faithful Airl listener & supporter
